Code flowchart

Understand the flow of code within your system using our code flowchart template. Identify start/stop points, conditions, inputs/outputs and decisions to showcase how a system connects.

How to use this template

1. Choose your stop and start points.
2. Insert any inputs or outputs and processing points.
3. Insert any decisions.
4. Connect the system with true/false flows.

Quick tips

Start with the toolbar
It's at the bottom of your screen, with stickies, stamps, and anything you need.

Move and zoom
Use the hand tool to pan around. Zoom controls are in the top-right corner.

But first: get your team in here
